

## Race 1 Summary & Results – 31<sup>st</sup> October 2013

Spirits were high but the weather wasn't laying low on our first sail of the season....yes, it was a bit scary out there! Blustery norwesterlies of 20-28kts ensured only the hardiest sailors took to the water with 6 of the 15 boats opting out. Sorry ladies, but we can't control the weather and it wasn't bad enough to cancel all sailing. Several of you were left stranded at the Club but thanks must be given to Terry Spitz, owner of Sea Beagle, who took the initiative to show many of you some basic sailing techniques on board the Bavaria 36 whilst in the marina. Others watched with interest from the comfort of the Clubhouse while a couple of you got a birdseye view from the tower so I'm sure something about sailing was learned from this experience. Let's hope the Halloween spirits will have crawled back into their world before the next WOW sail on November 14<sup>th</sup>.
